

7 · 2 KOWLOON REGION FLAG DAY

The Foundation specially designed the “SAVE WILDLIFE, SAVE OUR FUTURE” flag collection with 60 photos of wild animal species across Asia, representing the rich biodiversity. Many of these animals are endangered or threatened.

 <p>Chinese white dolphin</p> <p>Conservation status: Critically Endangered (Eastern Taiwan Strait subpopulation); Near Threatened (other subpopulations)</p> <p>Major threats: Entanglement in fishing gears, impact by boat traffic, habitat loss and degradation</p>	 <p>Black-faced spoonbill</p> <p>Conservation status: Endangered</p> <p>Major threats: Coastal development, agricultural and industrial activities have seriously degraded their habitats which caused loss of wetlands</p>	 <p>Chinese pangolin</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Hunting for local use and for international trade, loss and deterioration of available habitat</p>	 <p>Sumatran rhinocero</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Overhunting for the horns and body parts for proclaimed medicinal use</p>	 <p>Red panda</p> <p>Conservation status: Vulnerable</p> <p>Major threats: Habitat loss and fragmentation, poaching</p>	 <p>Chinese crested tern</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Egg collection, loss of coastal wetlands</p>
 <p>Asian elephant</p> <p>Conservation status: Endangered</p> <p>Major threats: Habitat loss, degradation and fragmentation, large-scale hunting for illegal ivory trade</p>	 <p>Irrawaddy dolphin</p> <p>Conservation status: Critically Endangered (5 subpopulations) Vulnerable (other populations)</p> <p>Major threats: Entanglement in fishing gears, habitat loss and degradation</p>	 <p>Dugong</p> <p>Conservation status: Vulnerable</p> <p>Major threats: Destruction and loss of seagrass bed</p>	 <p>Chinese white dolphin</p> <p>Conservation status: Critically Endangered (Eastern Taiwan Strait subpopulation); Near Threatened (other subpopulations)</p> <p>Major threats: Entanglement in fishing gears, impact by boat traffic, habitat loss and degradation</p>	 <p>Indus river dolphin</p> <p>Conservation status: Endangered</p> <p>Major threats: Water development projects including damming that lead to habitat degradation, water pollution and poaching</p>	 <p>Thorny tree frog</p> <p>Conservation status: Not Evaluated</p> <p>Major threats: Likely to be habitat loss and fragmentation, collection for pet trade, and climate change</p>
 <p>Giant panda</p> <p>Conservation status: Endangered</p> <p>Major threats: Degraded and fragmented habitats</p>	 <p>Delacour's langur</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Hunting, small and fragmented populations, habitat loss due to development for tourism</p>	 <p>Lionfish</p> <p>Conservation status: Involving various species, most are not evaluated</p> <p>Major threats: Utilised as a food source and harvested from the wild for display in public aquariums</p>	 <p>Bornean orangutan</p> <p>Conservation status: Endangered</p> <p>Major threats: Habitat loss, degradation and fragmentation by fires, and illegal logging, hunting and pet trade</p>	 <p>Chinese crested tern</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Egg collection, loss of coastal wetlands</p>	 <p>Yellow crested cockatoo</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Unsustainable exploitation for internal and international trade. Habitat loss by large-scale logging and conversion of forest to agriculture</p>

 <p>Yellow crested cockatoo</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Unsustainable exploitation for domestic and international trade. Habitat loss by large-scale logging and conversion of forest to agriculture</p>	 <p>Spotted seal</p> <p>Conservation status: Data Deficient</p> <p>Major threats: Subsistence hunting and historic commercial harvesting, intensive harvesting of their main prey species and habitat disturbance by oil and gas development</p>	 <p>Palawan forest turtle</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Illegal collection for pet trade</p>	 <p>Humpback whale</p> <p>Conservation status: Endangered (Arabian and Oceania subpopulations); Least Concern (other subpopulations)</p> <p>Major threats: Protected from commercial whaling but suffers from entanglement in coastal trap nets and ship strikes</p>	 <p>Giant panda</p> <p>Conservation status: Endangered</p> <p>Major threats: Degraded and fragmented habitats</p>	 <p>Delacour's langur</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Hunting, small and fragmented populations, habitat loss due to development for tourism</p>
---	---	---	--	--	---

 <p>Macaque</p> <p>Conservation status: Involving various species</p>	 <p>Clown fish</p> <p>Conservation status: Involving various species, mostly not evaluated</p> <p>Major threats: Being harvested for the aquarium trade; habitat degradation due to destructive fishing practices, tourism, coral bleaching, coastal development and water pollution</p>	 <p>Chinese alligator</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Habitat degradation and fragmentation</p>	 <p>Spotted seal</p> <p>Conservation status: Data Deficient</p> <p>Major threats: Subsistence hunting and historic commercial harvesting, intensive harvesting of their main prey species and habitat disturbance by oil and gas development</p>	 <p>Palawan forest turtle</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Illegal collection for pet trade</p>	 <p>Spotted seal</p> <p>Conservation status: Data Deficient</p> <p>Major threats: Subsistence hunting and historic commercial harvesting, intensive harvesting of their main prey species and habitat disturbance by oil and gas development</p>

 <p>Siamese Crocodile</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Habitat loss and degradation, illegal collection of eggs and poaching</p>	 <p>Yangtze finless porpoise</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Bycatch, entanglement in fishing gears, habitat loss and degradation, boat traffic and pollution</p>	 <p>Seahorse</p> <p>Conservation status: Most are Data Deficient, whilst some are Endangered or Vulnerable</p> <p>Major threats: Habitat destruction and overfishing to meet the needs for traditional medicine</p>	 <p>Helen's tree frog</p> <p>Conservation status: Endangered</p> <p>Major threats: Habitat fragmentation and degradation by encroachment, poaching for pet trade</p>	 <p>Seahorse</p> <p>Conservation status: Most are Data Deficient, whilst some are Endangered or Vulnerable</p> <p>Major threats: Habitat destruction and overfishing to meet the needs for traditional medicine</p>	 <p>Yangtze finless porpoise</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Bycatch, entanglement in fishing gears, habitat loss and degradation, boat traffic and pollution</p>
---	---	---	---	---	---

 <p>Javan slow loris</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Poaching for pet trade and extensive habitat loss</p>	 <p>Javan slow loris</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Poaching for pet trade and extensive habitat loss</p>	 <p>Smooth coated otter</p> <p>Conservation status: Vulnerable</p> <p>Major threats: Loss of wetland habitats due to implementation of large-scale hydroelectric projects, prey reduction, poaching and contamination of waterways by pesticides</p>	 <p>Amur tiger</p> <p>Conservation status: Endangered</p> <p>Major threats: Illegal trade in high-value tiger products including skins, bones, meat and tonics</p>	 <p>Takin</p> <p>Conservation status: Vulnerable</p> <p>Major threats: Habitat loss and poaching</p>	 <p>Mangshan pitviper</p> <p>Conservation status: Endangered</p> <p>Major threats: Habitat loss and poaching</p>
--	--	--	---	--	--

 <p>Philippine crocodile</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Historical commercial hunting and habitat loss for agriculture</p>	 <p>Philippine eagle</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Deforestation due to commercial timber extraction</p>	 <p>Philippine eagle</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Deforestation due to commercial timber extraction</p>	 <p>Sumatran orangutan</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Habitat loss by logging, wholesale conversion of forest to agricultural land and oil palm plantations, and fragmentation by roads. Illegally hunted and captured for the international pet trade and killed as pest</p>	 <p>Hog deer</p> <p>Conservation status: Endangered</p> <p>Major threats: Habitat loss and degradation, and hunting</p>	 <p>Golden snub-nosed monkey</p> <p>Conservation status: Endangered</p> <p>Major threats: Habitat loss by deforestation for agricultural expansion, especially outside the protected areas.</p>
--	---	---	--	--	--

 <p>Amur tiger</p> <p>Conservation status: Endangered</p> <p>Major threats: Illegal trade in high-value tiger products including skins, bones, meat and tonics</p>	 <p>Horseshoe crab</p> <p>Conservation status: Data Deficient</p> <p>Major threats: Loss of breeding habitats and pollution</p>	 <p>Blue-crowned laughingthrush</p> <p>Conservation status: Critically Endangered</p> <p>Major threats: Trapping for bird trade, habitat loss and destruction of nests</p>	 <p>Amur tiger</p> <p>Conservation status: Endangered</p> <p>Major threats: Illegal trade in high-value tiger products including skins, bones, meat and tonics</p>	 <p>Hong Kong grouper</p> <p>Conservation status: Endangered</p> <p>Major threats: Overfishing and habitat destruction</p>	 <p>Komodo dragon</p> <p>Conservation status: Vulnerable</p> <p>Major threats: Overfishing and habitat destruction</p>
--	---	--	---	--	--

 <p>Manta ray</p> <p>Conservation status: Vulnerable</p> <p>Major threats: Overfishing and by-catch</p>	 <p>Whale shark</p> <p>Conservation status: Vulnerable</p> <p>Major threats: Harpooning and by-catch; intrinsic factors like slow growth and mature rate</p>	 <p>Black-faced spoonbill</p> <p>Conservation status: Endangered</p> <p>Major threats: Coastal development, agricultural and industrial activities have seriously degraded their habitats which caused loss of wetlands</p>	 <p>Black shama</p> <p>Conservation status: Endangered</p> <p>Major threats: Habitat loss and destruction</p>	 <p>Green turtle</p> <p>Conservation status: Endangered</p> <p>Major threats: Harvests of eggs and adults from nesting beaches, bycatch, habitat degradation of nesting beaches and feeding areas</p>	 <p>Coral</p> <p>Conservation status: Involving various species</p> <p>Major threats: Destructive fishing practices, overfishing, irresponsible tourism, pollution and climate change</p>
