

Results Update and Arrangements for “Run For Survival 2019 – 4x2.5km Timed Relay”

On behalf of Ocean Park Conservation Foundation, Hong Kong (“OPCFHK”), we would like to thank all corporate sponsors, runners and their families for their generous support to the 5th RUN FOR SURVIVAL charity run on 19 May 2019. Together we safeguarded our oceans for the next generations, and raised fund for OPCFHK’s Asian wildlife conservation projects and local education programmes.

OPCFHK wished to engage more runners by adding a new 4x2.5km Timed Challenge Relay to this year’s event. The original idea was to have a mixed-gender relay but OPCFHK received some feedback after the event that indicated different interpretations of the team mix for the Relay. We duly reviewed the race introduction and arrangement, and found that the team definition for the Relay was not clearly stated on the event website, which could lead to misunderstanding. In order to maintain fairness of the race, OPCFHK has classified the results of the 4x2.5km Timed Challenge Relay into three categories – the mixed-gender group, male group and female group. The updated results are listed below. Winning teams will be contacted individually for prize collection.

Meanwhile, some winners were not able to attend the prize presentation ceremony on the event day. Referencing practices at similar events, volunteers were arranged to receive awards onstage on behalf of these winners. OPCFHK sincerely apologises for any lack of prior notification of such arrangement and the inconvenience caused.

The Relay was a first attempt for OPCFHK and we are committed to improving the logistics arrangements. We would like to thank all participants for their invaluable feedback. OPCFHK will do the utmost to avoid similar happenings in future.

Thank you for being our conservation heroes and supporting RUN FOR SURVIVAL 2019!
